Thank you very much W well
I want to thank you all very
much this is great these are
our friends we have thousands
of friends in this incredible
movement this was a
movement like nobody's ever
seen before and frankly this
was I believe the greatest
political movement of all time
there's never been anything
like this in this country and
maybe beond and now it's
going to reach a new level of
importance because we're
going to help our country heal
we going to help our country
heal we have a country that

needs help and it needs help
very badly we're going to fix
our borders we're going to fix
everything about our country
and we made history for a
reason tonight and the reason
is going to be just that we
overcame obstacles that
nobody thought possible and
it is now clear that we've
achieved the most incredible
political thing look what
happened is this crazy but it's
a political victory that our
country is never seen before
nothing like this I want to
thank the American people
for the extraordinary honor of

being elected your 47th
president and your 45th
president and every citizen I
will fight for you for your
family and your future every
single day I will be fighting
for you and with every breath
in my body I will not rest
until we have delivered the
strong safe and prosperous
America that our children
deserve and that you deserve
this will truly be the Golden
Age of America that's what
we have to have this is a
magnificent victory for the
American people that will
allow us to make America

great again oh and in addition
to having won the
Battleground states of North
Carolina I love these places
Georgia Pennsylvania and
Wisconsin we are now
winning in Michigan Arizona
Nevada and Alaska which
would result in US carrying at
least 315 electoral votes but
that but it's much easier doing
what the networks did or
whoever called it because
there was no other path there
was no other path to Victory
we also have won the popular
vote that was great very proud
of thank you [Applause]

been incredible they've made
the journey with me and we're
going to make you very happy
we're going to make you very
proud of your vote I hope that
you're going to be looking
back someday and say that
was one of the truly important
moments of my life when I

voted for this group of people
beyond the president this
group of great people
America has given us an
unprecedented empowering
mandate we have taken back
control of the Senate while
wow that's good and the
Senate races in Montana
Nevada Texas Ohio Michigan
Wisconsin the great
Commonwealth of
Pennsylvania were all won by
the mega movement they
helped so much and in those
cases every one of them we
worked with the Senators they
were tough races and I mean

the the number of victories in
the Senate was absolutely
incredible and we did T rallies
we did tell rallies with each
one of them and sometimes
we did two or three for and it
was amazing to look at all of
those victories nobody
expected that nobody so I just
wanted to thank you very
much for that and we have
you have some great senators
and some great new senators
and it also looks like we'll be
keeping control of the House
of Representatives and I want
to thank Mike Johnson I think
he's doing a terrific job terrific

this incredible journey I thank
you for the trust that you
placed in me and I think that
we just witnessed the greatest
political comeback in the
history of the United States of
America and under President
Trump's leadership we're
never going to stop fighting
for you for your dreams for
the future of your children
and after the greatest political
comeback in American
history we're going to leave
the greatest economic
comeback in American
history under Donald Trump's
leadership thank you very

much is he's turned out to be a
good good [Laughter] choice
I took a little Heat at the
beginning but he was uh I
knew I knew the brain was a
good one about as good as it
gets and we love the family
and we're going to have a
great four years and we're
going to turn our country
around make it something
very special it lost that lost
that little and lost that little uh
that little thing called special
we have to make it so we're
going to make this so great it's
going to it's the greatest
country and potentially the

greatest country in the world
by far and right now we're
going to just work very hard
to get all of that back we're
going to make it the best it's
ever been we can do that we
just if we had to wait longer I
don't know it was going bad
and it was going bad fast
we're going to have to seal up
those borders and we're going
to have to let people come
into our country we want
people to come back in but
we have to we have to let
them come back in but they
have to come in legally they
have to come in Legally let

me also express my
tremendous appreciation for

in the background she's not in
the [Applause] background
this was UN expected but I
just want to thank obviously
president Trump for this
journey it was a great one um
and he's a hell of a candidate
and he's going to be a hell of a

great 47th president and this
team that we had the best
team and of course even my
boss Susie WS the best thank
you thank you and thank you
Susie look at she I've never
seen her be shot before Susie
they've been they're great
everybody up here is great
everybody up here is very
special but uh the Trump yeah
who did you say oh let me tell
you we have a new star a star
is was born Elon now he is
now he's an amazing guy we
were sitting together tonight
you know he spent two weeks
in Philadelphia and different

parts of Pennsylvania
campaigning you know he
sent the rocket up two weeks
ago and I saw that rocket and
I saw it coming down I saw it
it was when it left it was
beautiful shiny white when it
came down it didn't look so
pretty it was going 10,000 M
an hour and was burning like
hell I said what happened to
your paint job he said we've
never made a paint that could
withstand that kind of heat
and uh but I saw it come
down and turn around and it
was you know it's like 22
stories tall by the way it looks

a little smaller than that but
it's big and it came down and
down and you saw all that fire
burning and and I'm saying
only Elon can do this it must
be an Elon and I tell the story
I told it last night I had a man
on the phone I had the screen
muted no sound I was talking
to a very important man
happens to be here and that
very important guy one of the
most important people in I
would say the country
actually but you know I was
president and now it looks
like I was going to be maybe
president again so I figured I

could ask him to hold so I
asked him to hold and
because especially because
you're going to be president
again they hold so took the
phone down and I'm looking
at the screen I'm seeing this
crazy thing that's going
around and coming down it
looks like it's said crash into
the Gantry and I said oh no
and I said Do me a fe mind
holding for a couple of I want
to see this I thought it was a
Space Age movie or
something I put the phone
down bad part I didn't pick it
up for 45 minutes and he was

holding but this spaceship came down and I saw those engines firing and it looked like it was over it was going to smash and then I saw the fire pour out from the left side and it put it straight and it came down so gently and then it wrapped those arms around it and it held it and just like you hold your baby at night your little baby and it was a beautiful thing to see and I called Elon I said Elon was that you he said yes it was I said who else can do that can Russia do it no can China do it no can the United States do

it other than you no nobody
can do that I said that's why I
love you Elon that's great and
you know when we had the
tragic hurricane Helen and it
hit it particular hit North
Carolina they were really
devasted the water this was a
big water as big as we've ever
seen water hurricane it built
Lakes out of nothing Fields
became lakes and and the
danger was unbelievable and
the people from North
Carolina came to me and they
said would it be possible
possible at all possible for you
to speak to Elon Musk we

need starlink I said what
starlink it's a form of
communication so I called
Elon and I'll tell you what he
had and it was very dangerous
people would die they had no
communication all the wires
went down I called Elon
Musk I said Elon you have
something called starlink is
that right yes I do what the
hell is it he said it's a
communication system that's
very good I said El they need
it really really bad in North
Carolina can you get it he had
that there so fast it was
incredible so and it was great

it saved a lot of lives he saved
a lot of lives but he's a
character he's a special guy
he's a Super Genius we have
to protect our Geniuses we
don't have that many of them
we have to protect our super
Geniuses I want to thank
some of the you know we
have up here today the US
Open Champion he's a
fantastic Al he's slightly
longer than me it's a a little bit
longer than me just a little bit
Bryson D Shambo is up here
some place what happened to
BR where is he Bryson oh he
was he's hitting balls on the

oh he's on the way he's hitting
balls Bryson oh look at him
he had a great he's got a great
career going great US Open
Bryson that's a fantastic job
and we also have a man and
Dana White who has done
some job he's that tough guy
so Dana started UFC and uh
came to me do you mind if I
use your nobody wanted to
give them or Rin cuz they
said it's a rough sport a little
rough and I helped him out a
little bit and I went and I said
this is the roughest sport I've
ever seen But I began to like
it and he loved it and

nobody's done a better job in sports and and you know he's a very uh motivational kind of a guy what he does he gets these Fighters and they they really go at it and it's become one of the most successful Sports Enterprises anywhere at any time it's doing so well I'd like to ask Danny just to say a couple of words because people love to hear from him nobody deserves this more than him and nobody deserves this more than his family does this is what happens when the machine comes after you what you've seen over the last

several years this is what it
looks like couldn't stop him
he keeps going forward he
doesn't quit he's the most
resilient hardworking man
I've ever met in my life his
family are incredible people
this is karma ladies and
gentlemen he deserves this
they deserve it as a family I I
I want to thank some people
real quick I want to thank the
Nel po Aiden Ross um uh uh
Theo vaugh Boston with the
boys and last but not least the
mighty and Powerful Joe
Rogan and thank you
America thank you have a

good night that is a piece of
work now he's an amazing
he's really an amazing guy but
most of all I want to thank the
millions of hardworking
Americans Across the Nation
who have always been the
heart and soul of this really
great movement we've been
through so much together and
today you showed up in
record numbers to deliver a
victory like really I probably
like no other this was
something this was something
special and we're going to
we're going to pay you back
we're going to do the best job

we're going to we're going to
turn it around it's got to be
turned around it's got to be
turned around fast and we're
going to turn it around we're
going to do it in every way
with so many ways but we're
going to do it in every way
this will forever be
remembered as the day the
American people regained
control of their country so I
just want to say that on behalf
of this great group of people
these are hardworking people
these are fantastic people and
we can add uh a few names
like Robert F Kennedy Jr he

came in and he's going to help make America healthy again and now he's a great guy and he really means it he wants to do some things and we're going to let him go to it I just said but Bobby leave the oil to me we have more Liquid Gold oil and gas we have more Liquid Gold than any country in the world more than Saudi Arabia we have more than Russia Bobby stay away from the liquid gold other than that go have a good time Bobby we're going to be pay paying down debt we're going to be reducing taxes we

have we can do things that nobody else can do nobody else is going to be able to do it China doesn't have what we have nobody has what we have but we have the greatest people also maybe that's the most important thing this campaign his campaign has been so historic in so many ways we've built the biggest the broadest the most unified Coalition they've never seen anything like it in all of American History they've never never seen any young and old men and women rural and urban and we had them

all helping us tonight when
you think I mean I was
looking at it I was watching it
they had some great analysis
of the people that voted for us
nobody's ever seen anything
like that they came from they
came from all quarters Union
non-union africanamerican
Hispanic American Asian-
American Arab American
Muslim american we had
everybody and it was
beautiful it was a historic
realignment uniting citizens
of all backgrounds around a
common core of common
sense you know we're the

party of Common Sense we
want to have borders we want
to have security we want to
have things be good safe we
want great education we want
a strong and powerful military
and ideally we don't have to
use it you know we had no
Wars four years we had no
Wars except we defeated Isis
we defeated Isis in record
time and but we had no Wars
they said he will start a war
I'm not going to start a war
I'm going to stop Wars but
this is also a massive victory
for democracy and for
Freedom together we're going

to unlock America's glorious
Destiny we're going to
achieve the most incredible
future for our people
yesterday as I stood at my last
stop on the campaign trail
never be doing a rally again
can you believe it I think
we've done 900 rallies
approximately from the can
you imagine 900 91
something a lot of rallies and
it was sad everybody was sad
many people have said this is
our last rally but now we're
going onto something that's
far more important because
the rallies were used for us to

put be put in this position
where we can really help our
country that's what we're
going to do we're going to
make our country better than
it ever has been and I said that
many people have told me
that God spared my life for a
reason and that reason was to
save our country and to
restore America to Greatness
and now we are going to
fulfill that mission together
we're going to fulfill that
mission the task before us will
not be easy but I will bring
every ounce of energy spirit
and fight that I have in my

soul to the job that you've
entrusted to me this is a great
job that there's no job like this
this is the most important job
in the world just as I did in
my first term we had a great
first term my great great first
term I will govern by a simple
motto promises made
Promises Kept we're going to
keep our promises nothing
will stop me from keeping my
word to you the people we
will make America safe
strong prosperous powerful
and free again and I'm asking
every citizen all across our
land to join me in this Noble

and righteous Endeavor that's
what it is it's time to put the
divisions of the past four
years behind us it's time to
unite and we're going to try
we're going to try we have to
try and it's going to happen
success will bring us together
I've seen that I've seen that I
saw that in the first term when
we became more and more
successful people started
coming together success is
going to bring us together and
we are going to start by all
putting America first we have
to put our country first for at
least a period of time we have

to fix it because together we
can truly make America great
again for all Americans so I
want to just tell you what a
great honor this is I want to
thank you I will not let you
down America's future will be
bigger better Bolder richer
safer and stronger than it has
ever been before God bless
you and God bless America
thank you very much thank
you [Music] [Music] [Music].
